“Following a recent court of appeal ruling it is now the case that the demolition of almost all buildings and structures is now also subject to planning controls. You will therefore need to contact the Local Planning Authority to make an application for a “determination of prior approval” prior to commencing any demolition works unless these works have explicitly been granted planning permission.

Demolition works close to sensitive sites will now also have to be screened by the Local Planning Authority to establish whether the project or its effects are likely to have a significant effect on the environment and as such require an Environmental Impact Assessment to be carried out.”
