MEDIUM VILLAGES

Medium Villages

Alvingham

© Crown copyright and database rights (2016) Ordnance Survey (East Lindsey District Council Licence number 100019809)

TF3691SW

Scale 1:3000

Site No:	ALV201	Address :	Adj White Barn Farm, Church Lane	Alvingham
Comments:	Adjacent to working farm yard, potential for disturbance from driers.			
Suitability:	Yes			
Availability	Yes, owner states 5 - 10 yrs			
Deliverability	Yes			
Viability:	Yes			
Area (sq.m):	1616.42	Estimated Capacity (Discounted Value):	1	

Site No:	ALV202	Address :	Adj Chapel Close, Highbridge Lane, Alvingham	Alvingham
Comments:				
Suitability:	Planning permission granted			
Availability	Yes			
Deliverability	Yes			
Viability:	Yes			
Area (sq.m):	1253.15	Estimated Capacity (Discounted Value):	5	

Site No:	ALV205	Address :	South of High Street, Alvingham	Alvingham
Comments:	Capacity reduced because of frontage and rural setting			
Suitability:	Yes. Mature hedge on frontage will require retention and trees within the site.			
Availability	Uncertain. Site was allocated in 1993 Deposit Local Plan for housing on the western part of the site and open space on the eastern part. The owners objected to this, stating that the village supported the site's retention as open space.			
Deliverability	Yes, assuming that the availability issues are resolved			
Viability:	Yes			
Area (sq.m):	12184.10	Estimated Capacity (Discounted Value):	11	

Site No:	ALV207	Address :	Opp Three Corners, Highbridge Lane, Alvingham	Alvingham
Comments:				
Suitability:	Planning permission granted on the 9/6/2015 for 4 units at O/L			
Availability	Yes, ready now			
Deliverability	Yes			
Viability:	Yes			
Area (sq.m):	5801.79	Estimated Capacity (Discounted Value):	4	

Site No:	ALV208	Address :	Land south of Highbridge Lane & north of Church Lane, Alvingham	Alvingham
Comments:				
Suitability:	No, access is an issue. When the site was submitted for the local plan, access was shown through the neighbouring site ALV202. This would mean the access would emerge on the bend, creating a crossroads which would be detrimental to highway safety.			
Availability	Yes, ready now			
Deliverability	Uncertain			
Viability:	Only if access could be addressed			
Area (sq.m):	9119.21	Estimated Capacity (Discounted Value):	13	

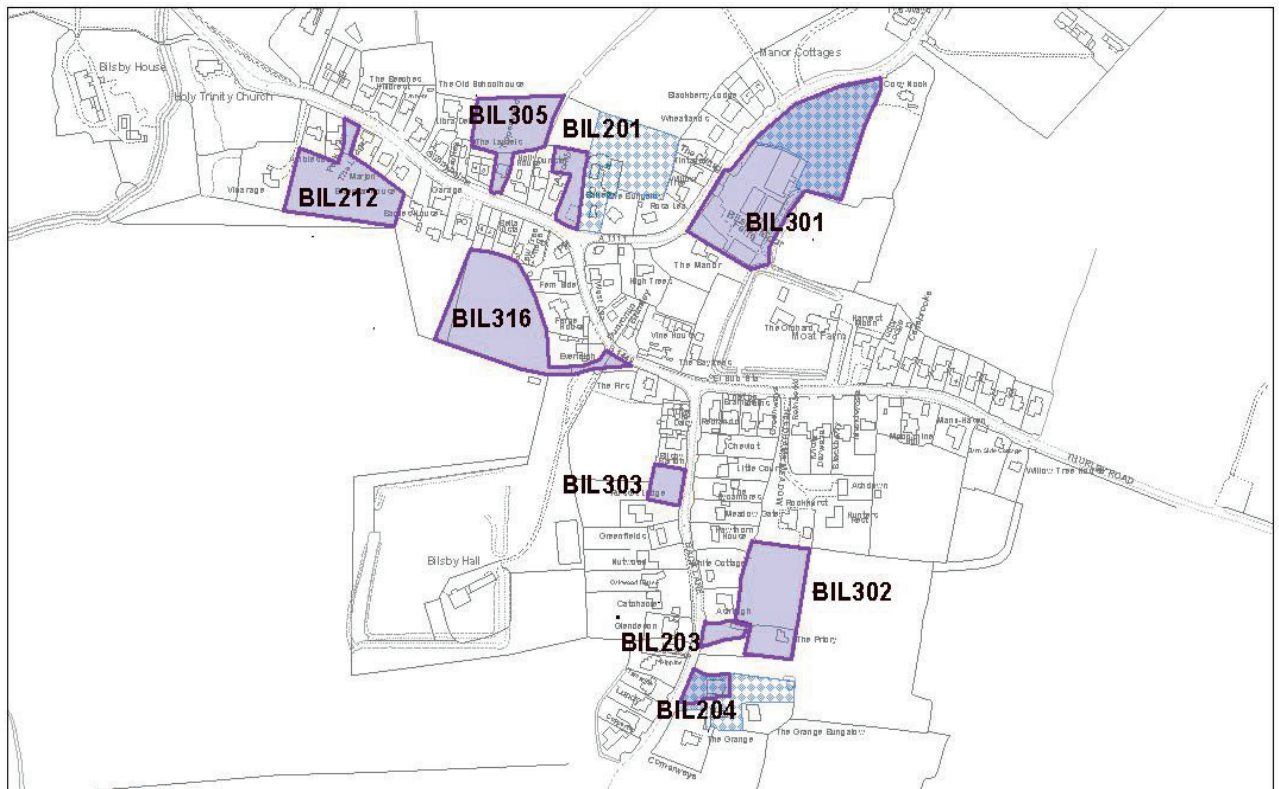

Site No:	ALV209	Address :	Adj Mill Garth, High Street, Alvingham	Alvingham
Comments:				
Suitability:	Site is a frontage of a larger field. Earthworks in field may require further investigation. Access is not good due to combination of bends and junction.			
Availability	Unknown			
Deliverability	No			
Viability:	Uncertain			
Area (sq.m):	1273.53	Estimated Capacity (Discounted Value):	2	

Site No:	Address :	Alvingham
Comments:		
Suitability:	No, site is remote from the main part of the village, there are sequentially better sites available. Also, there is potential for archaeological interest on the site (looking at aerial photos) and this would need to be examined further.	
Availability	No	
Deliverability	Yes	
Viability:	Yes	
Area (sq.m):	1519.96	Estimated Capacity (Discounted Value): 2

Site No:	Address :	Alvingham
Comments:	Part of the site is covered by a lake and so this area should be discounted from the survey. The remainder is suitable,	
Suitability:	No - no means of access shown to this site in isolation, as it stands it is undevelopable.	
Availability	No, owners details not known	
Deliverability	Yes. Discounted capacity excludes lake and overlap with ALV207.	
Viability:	Yes, if access can be arranged	
Area (sq.m):	12931.41	Estimated Capacity (Discounted Value): 6

Site No:	Address :	Alvingham
Comments:	Grassed field	
Suitability:	No because the access from Church Lane is too narrow and any other access would mean proposed development would not lie with the shape and character of the existing settlement.	
Availability	Yes - immediately	
Deliverability	Yes	
Viability:	Yes	
Area (sq.m):		Estimated Capacity (Discounted Value): 14

Bilsby

© Crown copyright and database rights (2016) Ordnance Survey (East Lindsey District Council Licence number 100019809)

TF4776

Scale 1:4000

Site No:	Address East of The Bakery, Sutton Road, Bilsby		Bilsby
Comments:	Site is sensitive but could accommodate a plot. Has been refused permission on Appeal. Highway access.		
Suitability:	Yes but subject to satisfying the issues		
Availability:	No indication the site is available		
Deliverability:	No		
Viability:	Yes		
Area (sq.m):	1361.28	Estimated Capacity (Discounted Value):	2

Site No:	Address	Bilsby
BIL203	Land at The Priory, Back Lane, Bilsby

Area (sq.m):	866.85	Estimated Capacity (Discounted Value): 1

Site No:	Address	Bilsby
BIL212	R/O Park View & The Lodge, Alford Road, Bilsby	
Comments:	Discounted density reflect density of surrounding development and presence of TPO trees on site and the constraints this will place on positioning of development on site	
Suitability:	Yes	
Availability	Yes - now	
Deliverability	Yes	
Viability:	Yes	
Area (sq.m):	4986.31	Estimated Capacity (Discounted Value): 4

Site No:	Address	Bilsby
BIL301	Alford Road	
Comments:	Capacity reduced to 5 as 5 units granted planning permission 7/8/15. The permission covers the areas to the north east of the farm buildings and not the farm buildings themselves.	
Suitability:	Yes, although will need careful development as entrance feature to the village	
Availability	Yes, ready now	
Deliverability	Yes	
Viability:	Yes	
Area (s.q.m):	12596.63	Estimated Capacity (Discounted Value): 5

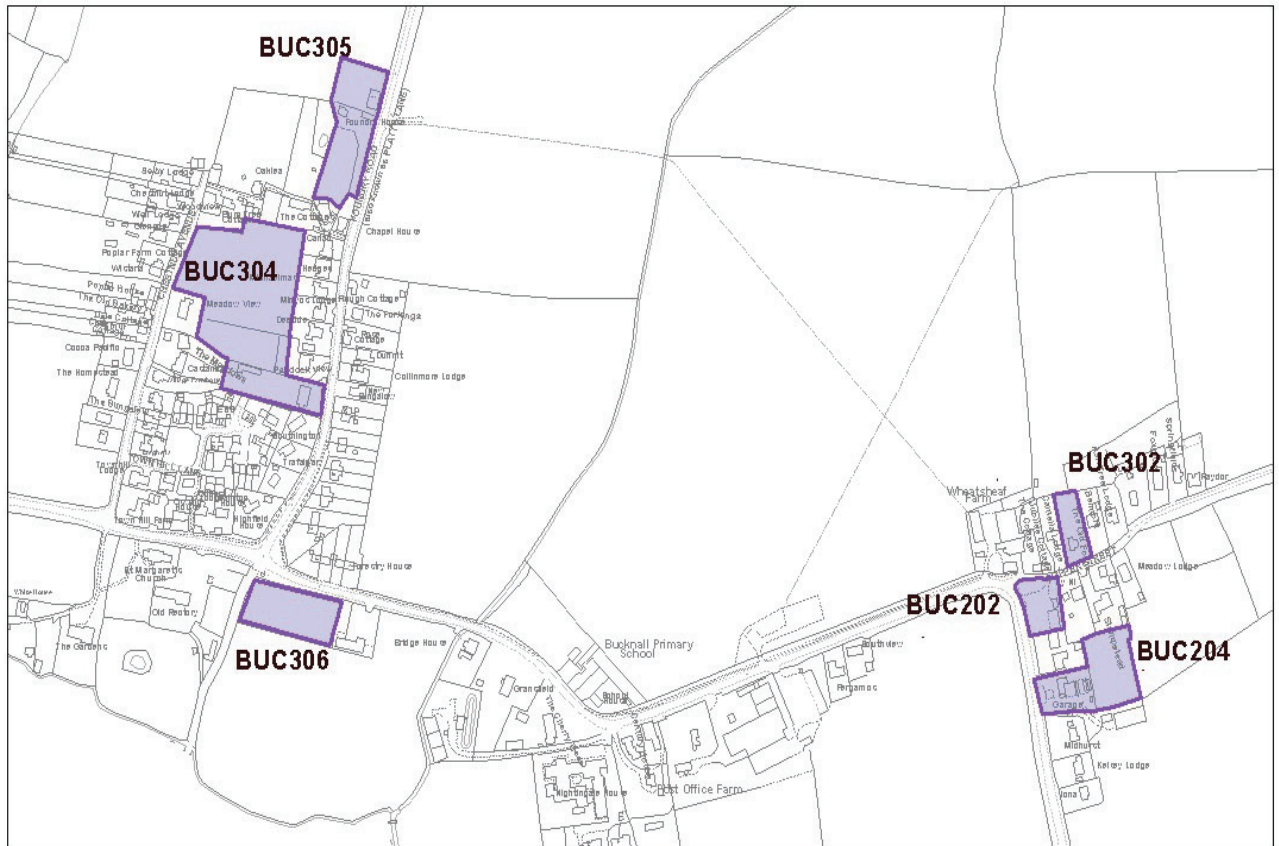

Site No:	Address	Bilsby
BIL302	Land off Back Lane	
Comments:	Site put forward by Parish Council. Existing house on part of site relates to BIL203.	
Suitability:	Yes - access through BIL203 which is in the same ownership	
Availability	Yes - now	
Deliverability	Yes, though BIL203 would have to come forward first	
Viability:	Yes	
Area (s.q.m):	4968.13	Estimated Capacity (Discounted Value): 7

Site No:	Address	Bilsby
BIL303	Bilsby Barton, Back Lane	
Comments:	Site is part of garden to adjoining house and is overlooked by the house. Would require sensitive design to retain rural character	
Suitability:	Yes,	
Availability	Yes, ready now	
Deliverability	Yes	
Viability:	Yes	
Area (s.q.m):	880.65	Estimated Capacity (Discounted Value): 1

Site No:	Address		Bilsby
BIL305	Land rear of Tipperwood, Alford Road		
Comments:	Comments from LCC highways, access is obtainable.		
Suitability:	Yes		
Availability	Yes - now		
Deliverability	Yes		
Viability:	Yes		
Area (sq.m):	3652.60	Estimated Capacity (Discounted Value):	5

Site No:	Address		Bilsby
BIL316	Land to the rear of Alford Road and Thurlby Road		
Comments:			
Suitability:	Yes - near central village amenities, though protruding into the open countryside so careful design will have to be considered.		
Availability	Yes - now		
Deliverability	Yes		
Viability:	Yes		
Area (sq.m):	7538.94	Estimated Capacity (Discounted Value):	10

Bucknall

© Crown copyright and database rights (2016) Ordnance Survey (East Lindsey District Council Licence number 100019809)

TF1768

Scale 1:4000

Site No:	BUC202	Address :	Corner Copper Street/Main Street, Bucknall	Bucknall
Comments:				
Suitability:	Yes			
Availability	Unknown			
Deliverability	Yes			
Viability:	Yes			
Area (sq.m):	1486.90	Estimated Capacity (Discounted Value):	1	

Site No:	BUC204	Address :	R/O Browns Garage, Horncastle Road, Bucknall	Bucknall
Comments:				
Suitability:	Yes

Deliverability	Yes			
Viability:	Yes			
Area (sq.m):	4020.69	Estimated Capacity (Discounted Value):	5	

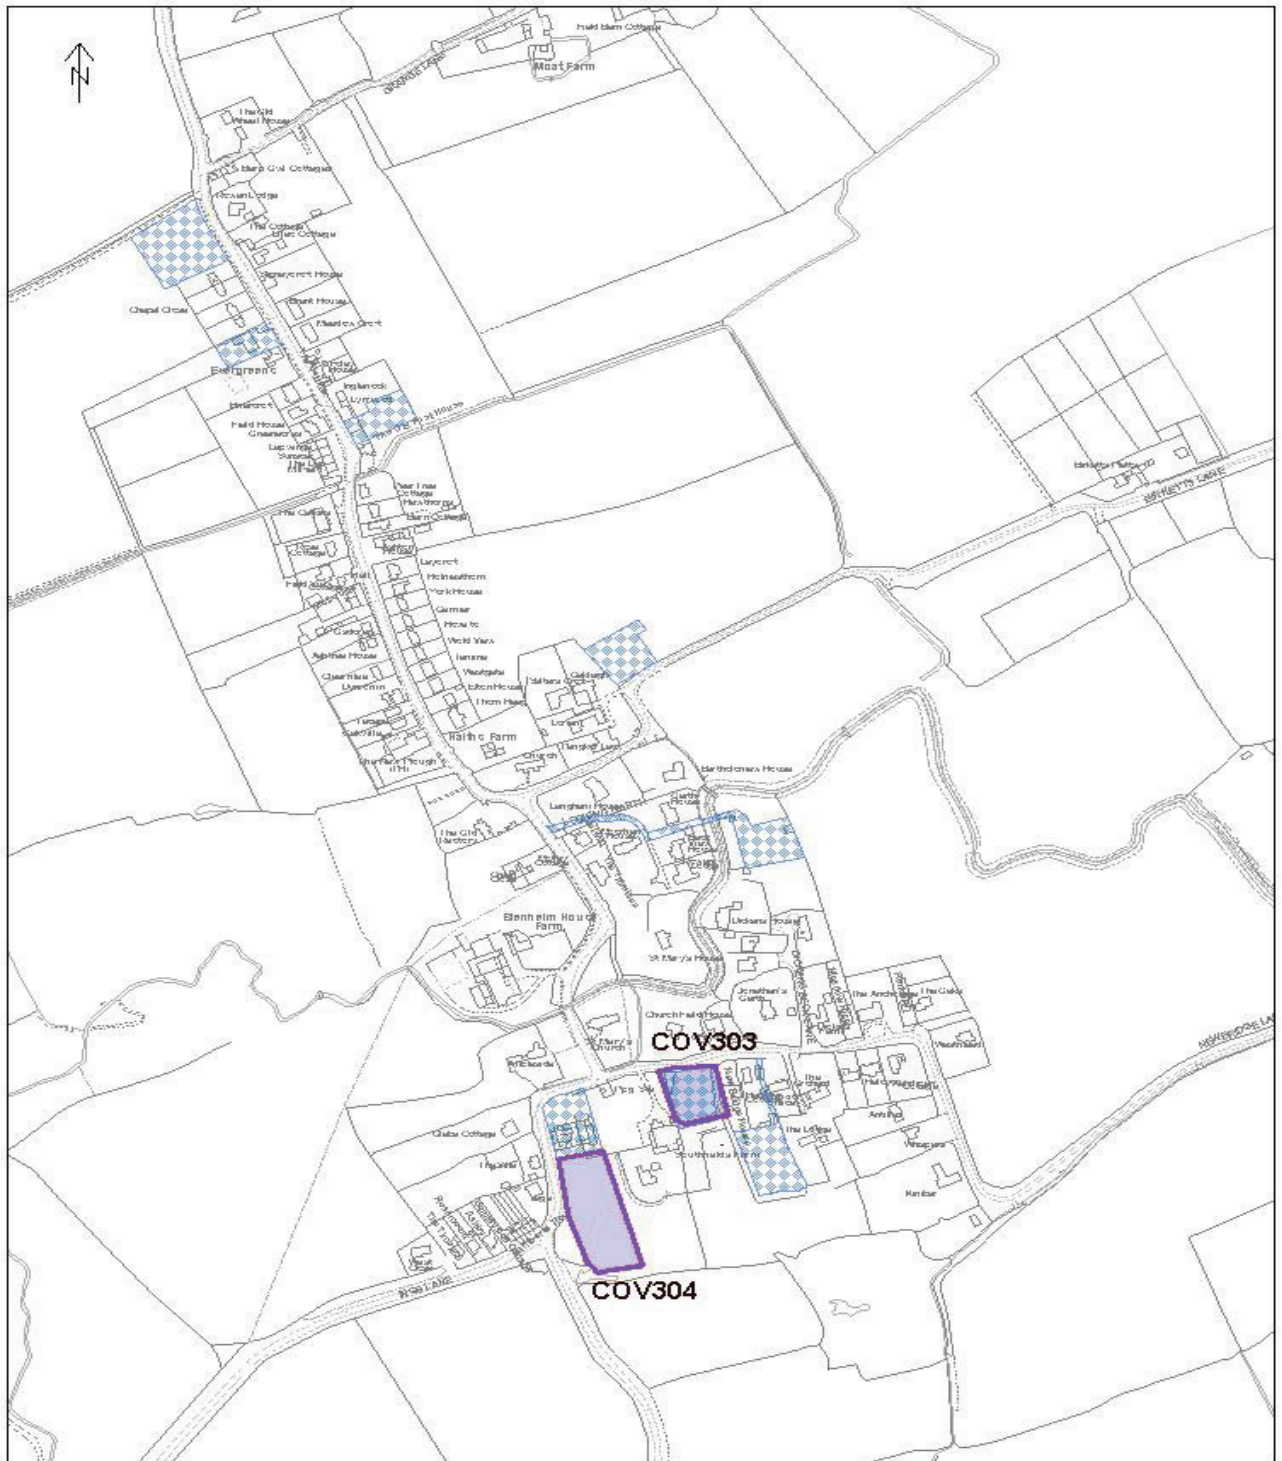

Site No:	BUC302	Address :	The Old Forge, Copper Street	Bucknall
Comments:				
Suitability:	Yes			
Availability	Yes			
Deliverability	Yes			
Viability:	Yes			
Area (sq.m):	1223.51	Estimated Capacity (Discounted Value):	2	

Site No:	BUC304	Address :	Land between Poplar Road and Foundry Road	
Comments:				
Suitability:	Yes, suitable access onto Poplar Rd should be restricted because it is so narrow but the landowner owns a bungalow which could be demolished to a give access onto Foundry Rd.			
Availability	Yes - now			
Deliverability	Yes			
Viability:	Yes			
Area (sq.m):	12181.47	Estimated Capacity (Discounted Value):	14	

Site No:	BUC305	Address :	Land off Foundry Road
Comments:			
Suitability:	Yes, but the site is very wooded to the rear with good boundary treatment, this will restrict the potential development on the site to frontage only and to the north on the footprint of the existing buildings or they could be converted, they are very rural in character.		
Availability	Yes - now		
Deliverability	Yes		
Viability:	Yes		
Area (sq.m):	4244.59	Estimated Capacity (Discounted Value):	3

Site No:	BUC306	Address :	Land off the B1190, adjacent to the village hall
Comments:			
Suitability:	Yes, for a low density development.

Deliverability:	Yes	
Viability:	Yes	
Area (sq.m):	2034.51	Estimated Capacity (Discounted Value): 1

Site No:	Address :	Covenham St Mary
Comments:	Blanket TPO on the site but the trees are sparsely spread over the site and development could be suitable with very careful design. Capacity reduced because of TPOs.	
Suitability:	Yes - but only with very careful design will this site be suitable because of TPOs on the site.	
Availability:	Yes - now	
Deliverability:	Yes	
Viability:	Yes	
Area (sq.m):	4210.33	Estimated Capacity (Discounted Value): 4

Map Reference TF3863

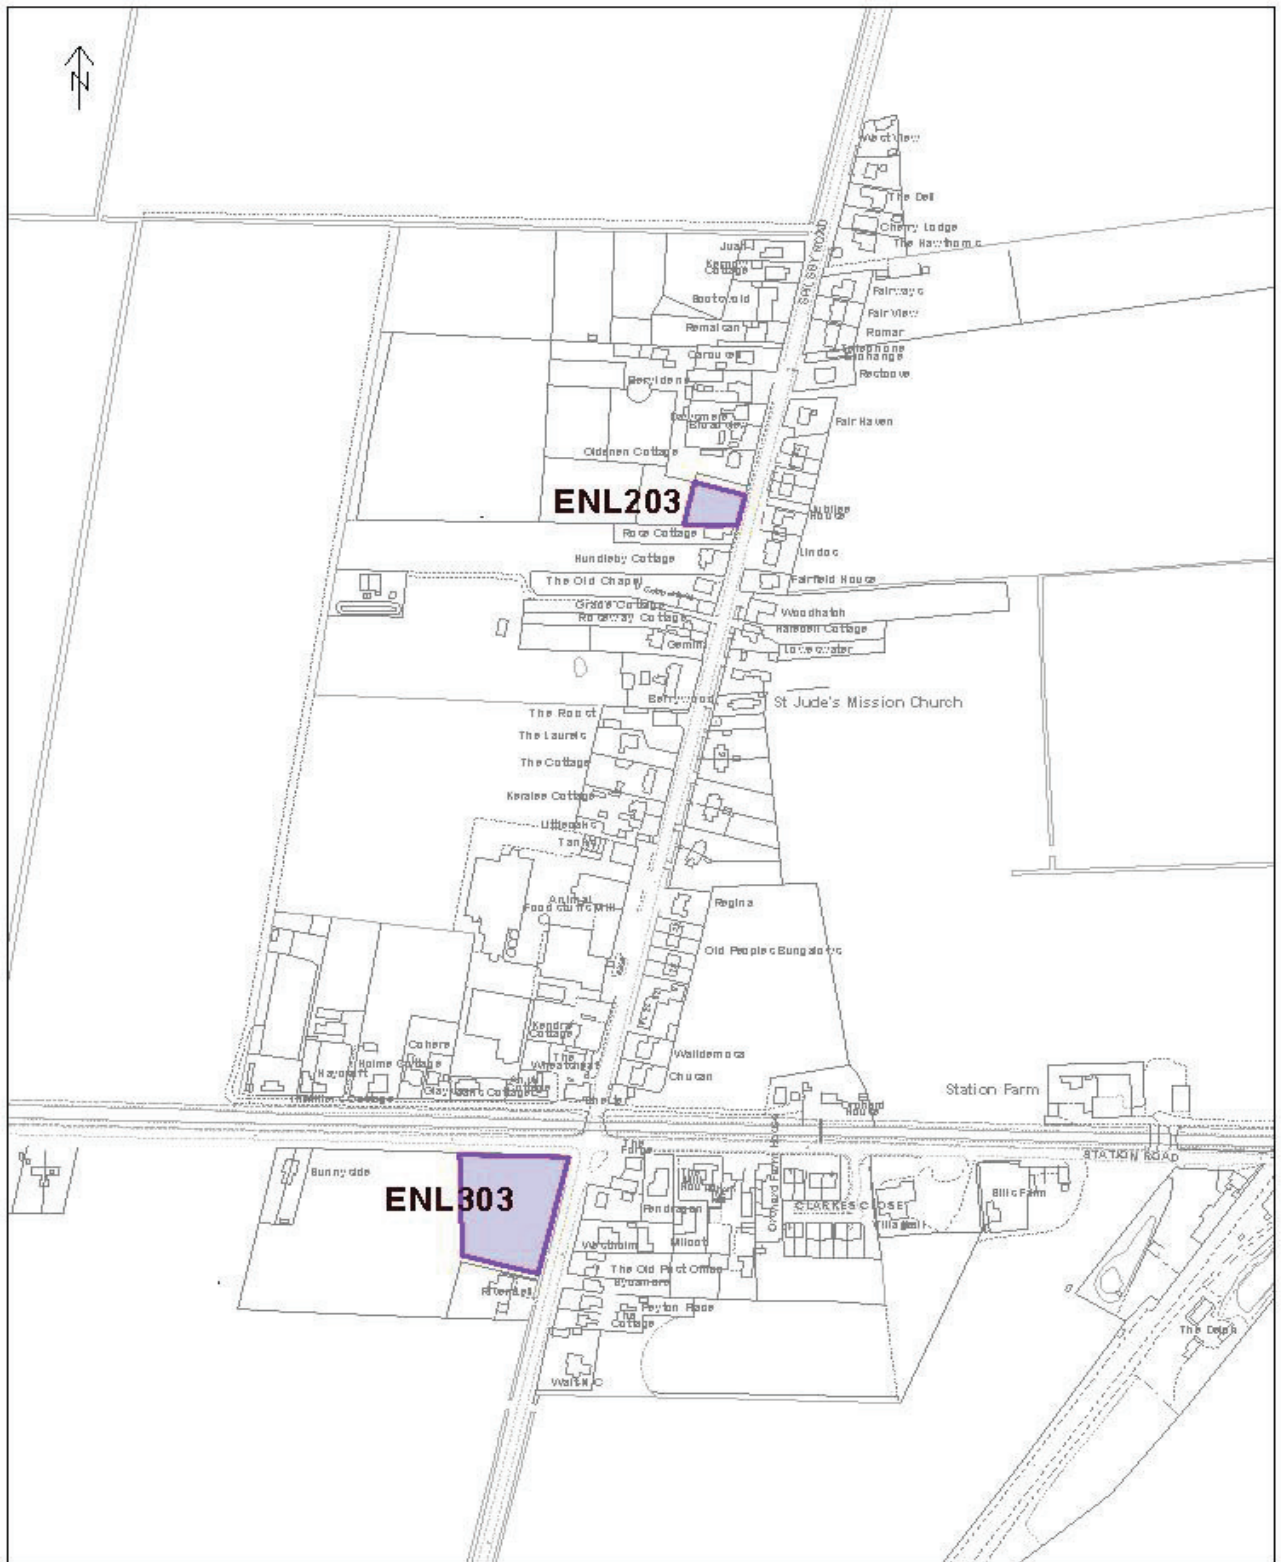

Scale 1:5000

Site No:	Address	East Keal
ETK301	Land at Church Lane	
Comments:		
Suitability:	Yes - but it affects setting of listed building (East Keal manor), though this could be overcome and views of St Helens. Access is poor and comes out near the recycling area. Capacity reduced down to 6 because of the access and an area with a phone box for public use which is not in the control of the landowner.	
Availability	Yes - now	
Deliverability	Yes	
Viability:	unknown	
Area (sq.m):	39230.05	Estimated Capacity (Discounted Value): 6

Site No:	Address	East Keal
ETK302	Highfield Farm, School Lane	
Comments:	Owner phoned on the 3rd of January regarding the site and putting it forward, it was explained it was already in the SHLAA but she wanted it to be noted they were still wanting to develop.	
Suitability:	No the site is not suitable, it is located down a very narrow rural lane with no pavements or street lighting.	
Availability	Yes	
Deliverability	No

Site No:	Address	Halton Holegate
HHG304	Peasgate Lane	
Comments:	Previous permissions for houses in 1997/8 not implemented.	
Suitability:	yes	
Availability	Unknown but previous interest in development evident in earlier planning permissions but these were not pursued	
Deliverability	yes	
Viability:	yes	
Area (sq.m):	828.06	Estimated Capacity (Discounted Value): 1

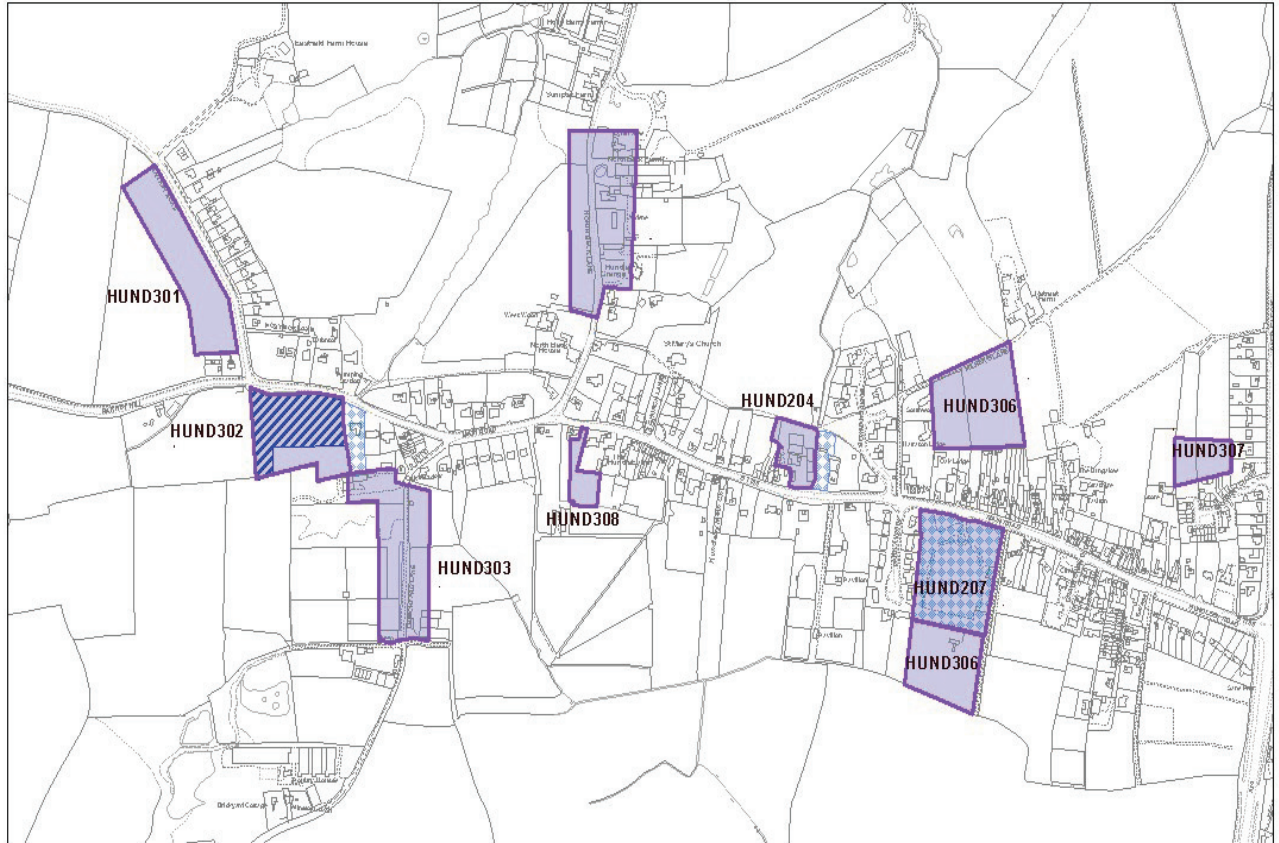

Site No:	Address	Halton Holegate
HHG305	Adj 50 Station Road	
Comments:		
Suitability:	Yes	
Availability	Unknown	
Deliverability	No	
Viability:	Yes	
Area (sq.m):	945.95	Estimated Capacity (Discounted Value): 2

Site No:	Address	Halton Holegate
HHG306	The Forge	
Comments:	Adjacent site was put forward in 2010, but boundary of site not formally identified by as part of SHLAA.	
Suitability:	No, the plot would egress onto double bends. Inquiries on nearby plot have raised significant concerns from the highways authority which are likely to preclude development and certainly for a plot of this size.	
Availability	Yes - now	
Deliverability	No	
Viability:	Uncertain	
Area (sq.m):	2909.19	Estimated Capacity (Discounted Value): 4

Site No:	Address :	Halton Holegate
Comments:	Capacity reduced significantly because site protrudes into the open countryside. May be acceptable for a small amount of development to the rear of the main farm buildings.	
Suitability:	Yes, there are many trees covered by TPO within the site and it protrudes into the open countryside this will significantly reduce capacity of the site	
Availability	Yes - now	
Deliverability	Yes	
Viability:	yes	
Area (sq.m):	82766.47	Estimated Capacity (Discounted Value): 10

Site No:	Address :	Halton Holegate
Comments:	Site owner suggests that site could provide a new school and playing field but there is no evidence to support the need for a school and the amount of housing needed would not be supported in Halton Holegate, which is a medium village.	
Suitability:	No - Site protrudes into the open countryside, it is out of character with the linear nature of the village and access would have to be off Peasgate Lane which is very narrow and rural.	
Availability	Yes - now	
Deliverability	No	
Viability:	Yes	
Area (sq.m):	120379.30	Estimated Capacity (Discounted Value): 169

Area (sq.m):	3686.73		Estimated Capacity (Discounted Value):	5			

Site No:	HUND207	Address :	Former Gables Hospital Site, Main Road, Hundleby	Hundleby
Comments:	The reason this has not been discounted at this time is there has been some recent interest in the site (2013).			
Suitability:	Yes, although there are serious constraints to development due to TPO trees on frontage and recent attempts to overcome them have not been successful			
Availability	Yes, ready now			
Deliverability	Uncertain			
Viability:	There are some doubts that this site is viable, at a profit level that developers are prepared to accept, considering the constraints on the site			
Area (sq.m):	13730.49	Estimated Capacity (Discounted Value):	19	

Site No:	HUND301	Address :	Land West of Raithby Road	Hundleby
Comments:	Open countryside character.

Viability:	Yes	
Area (sq.m):	1627.22	Estimated Capacity (Discounted Value): 2

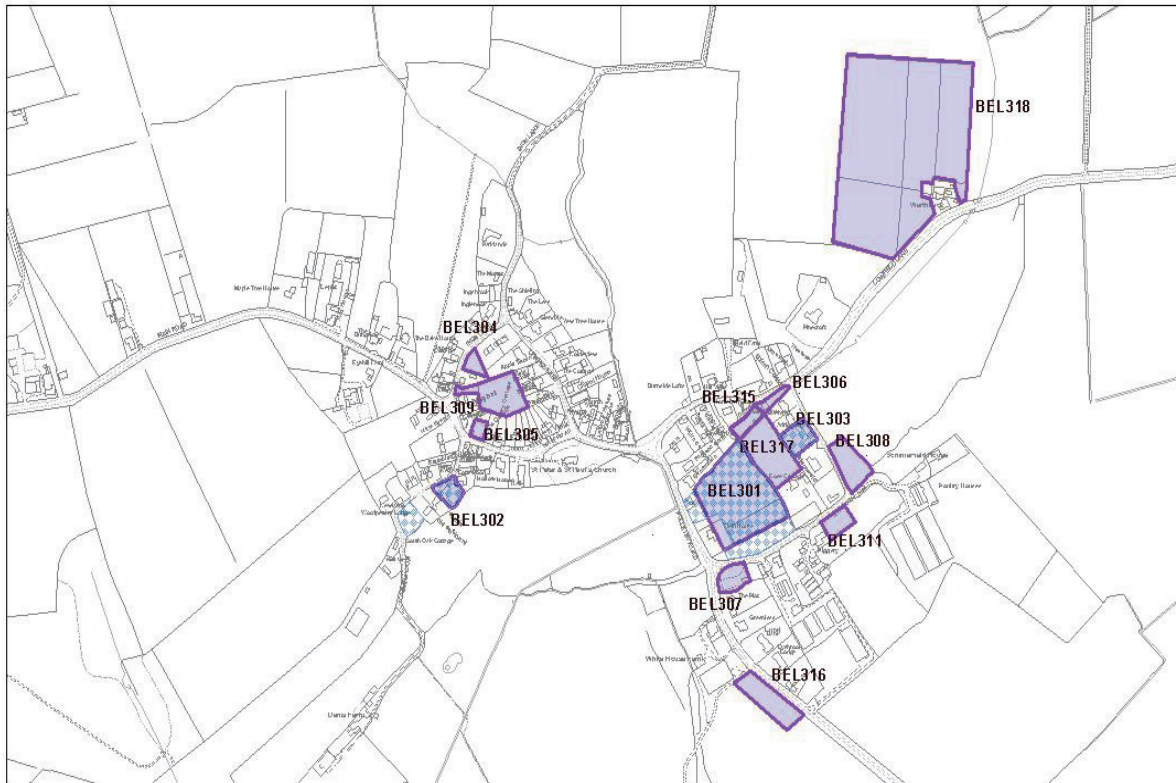

Site No:	Address :	Baumber
BAU301	Rear of The Old Blacksmiths Shop	
Comments:		
Suitability:	Yes the site is suitable. It is adjacent to the primary school but has access limitations, it is close to the church which is listed so this relationship should be considered. There is a house on the side of the site as you enter which is not included in the proposal. Capacity reduced down to 7 because the rear of the site goes out into the countryside and the access is quite restrictive.	
Availability	Yes - now	
Deliverability	Yes for part of the site that can be served by the access	
Viability:	Yes	
Area (sq.m):	9311.22	Estimated Capacity (Discounted Value): 7

Site No:	Address :	Baumber
BAU302	Land off Hunter's Lane	
Comments:		
Suitability:	No, not suitable, an open agricultural field, detached from the main body of the village. It would appear as if there is only one possible access from the main road, any alternative would involve going past dwellings down a single track. The access would make the site even more detached from the village.

Site No:	Address :	Mablethorpe
Comments:	Site is in red (danger to all) area on Environment Agency's 2115 Hazard maps	
Suitability:	The site is tidal flood risk in the red zone (danger for all) on the EA flood hazard maps. The site is a small warehouse/retail unit facing onto Waterloo Road, it runs for the whole length of the site ending at two Anderson shelters and a garage with access off Station Road. There would be opportunities for landscaping to improve the biodiversity, the buildings may have some wildlife in them but given the present use this is likely to be a limited amount. There is no impact on the townscape; redevelopment of the site would improve the visual appearance of the area, this site lies between two residential properties. There is no impact on the landscape the site is urban and enclosed. There is no impact on the historic environment. The site is close to services and facilities, including sport and leisure and there is a footpath connection. There are two potential accesses both of which could be acceptable.	
Availability	Uncertain, previous planning permission was not developed (expired 2008).	
Deliverability	No	
Viability:	Yes, aside from Flood Risk

Comments:	Site is in red (danger to all) area on Environment Agency's 2115 Hazard maps			
Suitability:	The site is tidal flood risk in the red zone (danger for all) on the EA flood hazard maps. The site is a disused builders yard which faces onto a narrow lane and is surrounded by residential properties. There would be opportunities for landscaping to improve the biodiversity, the buildings may have some wildlife in them but given the present use this is likely to be a limited amount. There is no impact on the townscape; redevelopment of the site would improve the visual appearance of the area, this site lies between residential properties. There is no impact on the landscape the site is urban and enclosed. There is no impact on the historic environment. The site is close to services and facilities and there is a footpath connection but the vehicle access will be difficult because the roadway is unmade up.

NSO025	Land to rear of Red House Farm, Keeling Street	
Comments:	Site is part in the orange zone, in green (low hazard) area of Environment Agency's 2115 hazard maps. Capacity reduced to reflect this	
Suitability:	The site is tidal flood risk in the orange zone (danger for all) and green zone (low risk) on the EA flood hazard maps. The site is a stables with outbuildings, there is a green area the front of the site with a shared access. The buildings could house wildlife and a survey would have to be carried out. There is no impact on the townscape; redevelopment of the site would improve visual appearance of the area. There will be no impact on the landscape as the site is reasonably well enclosed. There is no impact on the historic environment. The site is close to services and facilities. Any access would have to pass adjacent to existing residential properties and would have to be shared, this may have an impact. Capacity reduced to reflect the mixed flood risk on the site.

NSO026	Bus Depot, Keeling Street	
Comments:	Site is in orange (danger to most) area on Environment Agency's 2115 hazard maps with a depth of 0.5 - 1 metre	
Suitability:	The site is tidal flood risk in the orange zone (danger for all) on the EA flood hazard maps. The site is a bus depot, with some boundary hedging and an open frontage, there is a building on the site. There would be opportunities for landscaping to improve the biodiversity, the building may have some wildlife in it but given the present use this is likely to be a limited amount. There is no impact on the townscape; redevelopment of the site would improve the visual appearance of the area. There will be an impact on the landscape as the site is open to the rear within a flat landscape. There is no impact on the historic environment. The site is close to services and facilities and there is a footpath connection on the opposite side of the road. The site has an existing access which is suitable.

Comments:	Site is within orange (danger to most) area on Environment Agency's 2115 hazard maps with depth of 0.25 - 0.5 metres	
Suitability:	The site is tidal flood risk in the orange zone (danger for all) on the EA flood hazard maps. The site is a former coal yard, now disused with empty buildings on it. There would be opportunities for landscaping to improve the biodiversity; the buildings may have some wildlife in them. The boundary is made up of mature hedging with some TPO trees on the site, to the east lies the secondary school, to the west residential properties and woodland. There is no impact on the townscape; redevelopment of the site would improve the visual appearance of the area, though most likely would have little impact on the street scene because it is so far set back from the road. There will be no impact on the landscape as the site is enclosed. There is no impact on the historic environment. The site is close to services and facilities, the site is a long way from the main road, set back down a lengthy driveway, which is unlit. Once on the main road there is a footway. Any access would have to pass adjacent to existing residential properties and may have an impact.

NSO204	West View Farm, Bank End, North Somercotes	
Comments:	Site is within orange (danger to most) area on the Environment Agency's Hazard Maps.	
Suitability:	The site is agricultural buildings. The buildings are single storey traditional agricultural buildings, one of them runs along the frontage and is quite attractive, its loss would impact on the street scene. There will be no impact on the landscape as the site is reasonably well enclosed. There is a slight impact on the historic environment, because the buildings are of a traditional nature but not listed. The site is not close to services and facilities, Bank End is a narrow rural lane flanked by residential properties, lighting is not good and there is no footpath.

Site No:	SK001	Address :	Land off Arcadia Road	Skegness
Comments:	Site is within Green/Yellow Area on 2115 EA Hazard Mapping. Capacity has been input to reflect that already approved			
Suitability:	The site is tidal flood risk in the yellow and green zones (Low) on the EA flood hazard maps. The site is a car sales area. There is no green infrastructure on the site. It has grey palisade fencing for its boundary feature. There would be no impact on the townscape, redevelopment would improve the area. There will be no impact on the landscape as the site is urban and reasonably well enclosed. There is no impact on the historic environment. There will be room to improve biodiversity through landscaping. The site is very close to services and facilities; it is next to the town centre. The site had pp for ground floor retail and 6 flats in 2006, this has expired.

SK310	Land west of Gibraltar Road	
Comments:	Site is within Orange (Danger to Most) Area on 2115 EA Hazard Mapping and depths of between 0.5 - 1 metre	
Suitability:	No the site is not suitable - The site is greenfield and it lies within Orange (Danger to Most) Area on 2115 EA Hazard Mapping and is very close to the sea frontage. The site is agricultural fields with boundary hedges and drainage ditches. It is flat with open views to the north east. Access on a site this size would have to be from more than one point as the possibilities are quite narrow. The site is reasonably close to the services and facilities in the town centre and there are footways with lighting. The site does not impact on the historic environment nor the townscape though it is moving development further out into the countryside.

SK318	Former Kwiksave Store, North of Old Wainfleet Road	
Comments:	Contamination - Unknown Filled Ground (Pit quarry etc) Potentially Infilled Site 1991 and Clay Bricks and Tile Manufacture 1889, 1906, 1951. Landfill site.	
Suitability:	The site is tidal flood risk in the red and orange zones (danger for most and danger for all) on the EA flood hazard maps. The site is a former supermarket site now derelict. There is not very much in the way of green infrastructure on the site. There may be room to improve biodiversity through landscaping. There would be no impact on the townscape, redevelopment would improve the area. There will be no impact on the landscape as the site is urban and reasonably well enclosed. There is no impact on the historic environment. The site is close to services and facilities, there is a footpath link and the town centre is in easy walking distance.	
Availability	The Department has had an informal enquiry for housing development (or log cabins) on the site and the site is for sale

SOS308	Land at Rossa Lane	
Comments:	. Part Carvan park part stabling/menage and open land	
Suitability:	The site is tidal flood risk in the orange (High Risk) zone on the EA flood hazard maps. The site is part caravan site, part stabling, ménage and open land. There is some landscaping but it could be improved to add quality to biodiversity. There would be no impact on the townscape because this site is detached from the main body of the settlement and is in effect in the open countryside. There will be a minor impact on the landscape as the site lies within a flat landscape, development would obstruct wider views into the distance. There is no impact on the historic environment. The site is a considerable distance from services and facilities with no footpath link and no street lighting, it is in effect in the open countryside.
