Subject: East Lindsey Local Plan - Important Information from the Inspector

Good Afternoon,

The Matter 3a statement from Metacre Ltd provides a detailed analysis about a significant number of sites (for example in paragraphs 5, 6, 8, 9, 32 and Appendix 1). The Inspector does not intend to hold a detailed discussion about these sites on a site by site basis at the hearing session on 4 October, although he will hold a more general discussion about the points raised. Instead he intends to ask the Council to respond in writing to the site specific points in the Metacre Ltd statement. This should take into account any relevant considerations discussed at the Matter 4 session on 27 September. The Inspectors will then take the Metacre Ltd statement and the Council's response into account when reaching conclusions, along with the discussion at the hearings. However, it would be helpful if the Council's response could be made available in time for the Matter 3a session.

Kind Regards,

Gemma Clark
Programme Officer
East Lindsey District Council Local Plan
