B4. Please give details of why you consider the Local Plan is not legally compliant or is unsound?

If you wish to support the legal compliance or soundness of the Local Plan, please also use this box to set out your representations.

Whilst we welcome MM19 allowing for more flexible occupancy periods to be maintained on extended/redeveloped sites, we maintain - as per our earlier representations (dated 21st June 2017) made in relation to Matter 15 - that a more comprehensive revision to Policy SP19 should be made. Specifically, it should allow occupancy limits to be applied flexibly on all existing sites, in circumstances where the net increase in pitches is considered to be small in scale and where the site-specific circumstances make it appropriate to do so. This will allow individual planning applications to be considered on their merits and avoid Policy SP19 unnecessarily restricting the occupancy period of extended sites where there is no technical justification to do so. This, in turn, will ensure that Policy SP19 does not undermine the Plan's support for opportunities for growth within the tourism sector.

Please be as precise as possible.

B5. Please set out what changes you consider necessary to make the proposed Main Modification to the Local Plan legally compliant or sound. Having regard to the test you have identified at B3 above where this relates to soundness?

You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

In order to ensure that the Local Plan is sound by avoiding Policy SP19 from unduly restricting opportunities for growth within the tourism sector, the main modification proposed at paragraph 9 should be revised as follows:

"Where it is proposed to extend or redevelop an existing site with a different occupancy period, consideration will be given to any proposed ~~providing that the development would not~~ increase in the number of caravans, log cabins or chalets on the site, such that the occupancy limits in this policy will be applied flexibly so that no disadvantage should result"

In accordance with the above, the proposed main modification at Clause 7 should also be revised as follows:

".....except where it is proposed to extend or redevelop an existing site with a different occupancy period and ~~no net increase or an overall reduction by an improved layout or density in the number of caravans, log cabins or chalets would result.~~ In such cases, applications will be judged on their individual merits and the occupancy period will be applied on the whole site".

Please be as precise as possible.

B6. Do you have any comments on the updated Addendum to the Sustainability Appraisal or Addendum to the Habitats Regulations Assessment in respect of this particular modification?

N/A

Please be as precise as possible.
