MAIN MODIFICATION REFERENCE	COMMENT	SUGGESTED CHANGE – IF ANY
MM4 Policy SP3 Page 23 Paragraph 12	We support the changes that confirm that a minimum of 6562 new homes will need to be provided in the inland area. This provides clarity regarding the growth requirements of the Plan area.	
MM4 Policy SP3 Page 24 Paragraph 15	We support the change of wording to clarify the Plan’s approach of distributing growth across a range of settlements to support the existing settlement hierarchy and the distribution of services. This approach meets the core planning principles set out in the National Planning Policy Framework and will deliver the homes, businesses and industrial units, infrastructure and thriving local places that the country needs. Concentration of growth would lead to the decline of many currently thriving settlements across East Lindsey.	
MM4 Page 26 Policy SP3 Paragraph 32	We support the new emphasis on the benefit of windfall development in supporting local communities and to meet the Local Plan Growth targets. We note the Plan will no longer include a figure for the expected contribution from windfall and that the Council is reviewing its monitoring procedures in order to quantify the past and expected future contribution from this form of supply. It is important to confirm the Council’s continued support to windfall development.	
MM4 Page 30 SP3 Clause 5	Support the introduction of the definition of “appropriate locations for new growth”. This provides useful clarity in the assessment of potential windfall sites.	

<p>MM27 Page 121 Policy SP28 New paragraph after 16</p>	<p>We welcome the commitment to update and review the Infrastructure Delivery Plan on an annual basis. This will give the opportunity for Infrastructure providers to review the needs and opportunities of an area and ensure developers are not presented with unreasonable and unjustified demands.</p>	
<p>MM28 Page 122 New Policy after SP18</p>	<p>We support the new policy commitment to review the impact of significant new policy approaches, specifically the introduction of constraints to development in the Coastal Area and to submit a revised plan by April 2022.</p> <p>The new policy approach is a significant change and the impact on the affected communities must be monitored closely to ensure the policy is having the expected effect and any unforeseen negative impacts are addressed promptly and effectively.</p>	
<p>MM30 Page 11 Table at Paragraph 2.7</p>	<p>We support the clarification that the growth figures for each settlement are not intended as maximum figures. We understand the discussion at the Hearing Sessions concluded that the table showed the expected capacity of the housing allocations in each settlement, that the figures are not a policy requirement for each site and a different number of dwellings could in fact be provided and did not represent an allocation of growth to each settlement. A minor change to the wording should be promoted to align with MM4 (page 26, policy SP3, paragraph 21 Table B).</p>	<p>“Table A below, shows the capacity of the housing allocations in each settlement. “or similar wording adapted from MM4.</p>

East Lindsey Emerging Local Plan Proposed Main Modifications (2017) Consultation
 Mr Sims, Burgh Le Marsh, Site BLM 318

<p>MM31 Pages 13 and 14 New policy after paragraph 2.12</p>	<p>We support the principle of including a new policy to list all the housing allocations in each settlement across the plan area. This approach provides essential clarification within the Plan of the status of the various allocations shown on the amended policies map. The Policy provides an ideal opportunity to identify factors to be considered when promoting the development of individual allocated sites.</p> <p>The commentary regarding site Burgh Le Marsh BLM 320 provides clarification regarding the acceptable form of development of the allocation and confirms there are no known constraints on other allocations in the settlement, including BLM318.</p>	
<p>SP3 Page 23 And MM35 Pages 23 and 24</p>	<p>We support the deletion of Site BLM310 from the Burgh Le Marsh inset map. The site has many constraints that would undermine the delivery of development on the site. The retention of the BLM310 would obscure clarity regarding the development aspirations in the settlement and could have delayed delivery of other allocated sites, such as BLM 318, which does not suffer from any such constraints.</p>
