**B4. Please give details of why you consider the Local Plan is not legally compliant or is unsound?**

If you wish to support the legal compliance or soundness of the Local Plan, please also use this box to set out your representations.

The proposed modification includes wording based upon the findings of the Council's Water Study (dated June 2016) relating to Mareham Le Fen.

As drafted the text refers to Red-Amber-Green (RAG) rating presented in the Study for Mareham Le Fen but does not clarify what is meant by each rating. For example reference is made to potential sewage treatment upgrade and foul sewerage network improvements in this catchment. It is therefore suggested that the wording be amended to make the plan effective.

Please be as precise as possible.

**B5. Please set out what changes you consider necessary to make the proposed Main Modification to the Local Plan legally compliant or sound. Having regard to the test you have identified at B3 above where this relates to soundness?**

You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

It is therefore suggested that the main modification be amended as follows:

~~'Water Infrastructure – Mareham le Fen is served by its own Water Recycling Centre. Using red, amber and green to indicate issues with the water system the facility is amber with water resources/supply being green.~~**As set out in the East Lindsey Water Cycle Study (dated June 2016) there may be a need for treatment upgrades at Mareham Le Fen Water Recycling Centre (WRC). Any further investment which is required at Mareham Le Fen WRC would be made by Anglian Water through their business planning process. The Study identifies a need for improvements to be made to the foul sewerage network to accommodate the sites at Mareham Le Fen subject to a more detailed assessment as part of the planning application process. There is currently capacity within the existing water supply network to accommodate sites at Mareham Le Fen.'**

Please be as precise as possible.

**B6. Do you have any comments on the updated Addendum to the Sustainability Appraisal or Addendum to the Habitats Regulations Assessment in respect of this particular modification?**

Please be as precise as possible.
