Your representation should succinctly cover all the information, evidence and supporting information necessary to support/justify your representation and any suggested changes.

B4. Please give details of why you consider the Local Plan is not legally compliant or is unsound?

If you wish to support the legal compliance or soundness of the Local Plan, please also use this box to set out your representations.

Core Strategy Map CS1 does not represent any internationally designated nature conservation sites (ie Ramsar wetlands, Special Protection Areas (SPA) and Special Areas of Conservation (SAC)) on the map or key.

It was agreed at the Stage 2 hearing session that as Policy SP24 identifies these sites for protection, they should also be shown on the maps and we are pleased to note that ancient woodlands have been added as requested. We would argue that for Policy SP24 to be properly enacted and effective, all of the sites and designations it covers should be mapped for clarity.

It is also inconsistent with national policy as paragraph 117 of the NPPF states that: 'To minimise impacts on biodiversity and geodiversity, planning policies should: identify and map components of the local ecological networks, including the hierarchy of international, national and locally designated sites of importance for biodiversity, wildlife corridors and stepping stones that connect them and areas identified by local partnerships for habitat restoration or creation...'.

Please be as precise as possible.

B5. Please set out what changes you consider necessary to make the proposed Main Modification to the Local Plan legally compliant or sound. Having regard to the test you have identified at B3 above where this relates to soundness?

You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Internationally designated sites should be added to the map and key, including Special Areas of Conservation (SACs), Special Protection Areas (SPAs) and Ramsar sites.

Please be as precise as possible.

B6. Do you have any comments on the updated Addendum to the Sustainability Appraisal or Addendum to the Habitats Regulations Assessment in respect of this particular modification?

No

Please be as precise as possible.
