B4. Please give details of why you consider the Local Plan is not legally compliant or is unsound?

If you wish to support the legal compliance or soundness of the Local Plan, please also use this box to set out your representations.

At the Examination hearing it was agreed by the Inspector that all sites referred to by Policy SP24 should be included on the maps in order for the policies to be duly enacted.

The map includes a LWS that is also ancient woodland in the north. From the shading of this site it is not clear that it is both of these designations and as such Policy SP24 cannot be effectively enacted.

The lack of clarity on these designations means that the Plan is not:

- Sound because: it is not effectively enabling the delivery of sustainable development in accordance with the policies in the NPPF, in particular paragraphs 7, 17, 109, 110, 117 and 118

Please be as precise as possible.

B5. Please set out what changes you consider necessary to make the proposed Main Modification to the Local Plan legally compliant or sound. Having regard to the test you have identified at B3 above where this relates to soundness?

You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The GLNP suggests that the shading of the different designations is changed so that it is clear where designations overlap and that these can be easily identified on the key.

Please be as precise as possible.

B6. Do you have any comments on the updated Addendum to the Sustainability Appraisal or Addendum to the Habitats Regulations Assessment in respect of this particular modification?

Please be as precise as possible.
