B4. Please give details of why you consider the Local Plan is not legally compliant or is unsound?

If you wish to support the legal compliance or soundness of the Local Plan, please also use this box to set out your representations.

At the Examination hearing it was agreed by the Inspector that all sites referred to by Policy SP24 should be included on the maps in order for the policies to be duly enacted. This map includes the SSSI but the SAC has been missed.

The SAC partially overlaps with the SSSI designations so a means of adding this designation with clarity should be determined.

A lack of these designation on the map means that the Plan is not:

- Legally compliant because: policies and proposals to protect the integrity of internationally important nature conservation sites will be ineffective because they are unaware of the presence of such sites.
- Sound because: it is not effectively enabling the delivery of sustainable development in accordance with the policies in the NPPF, in particular paragraphs 7, 17, 109, 110, 117 and 118

Please be as precise as possible.

B5. Please set out what changes you consider necessary to make the proposed Main Modification to the Local Plan legally compliant or sound. Having regard to the test you have identified at B3 above where this relates to soundness?

You will need to say why this modification will make the Local Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

The map should include all types of designation listed in SP24 including the international site (SAC) that is currently missing so that the policy can be duly enacted.

Please be as precise as possible.

B6. Do you have any comments on the updated Addendum to the Sustainability Appraisal or Addendum to the Habitats Regulations Assessment in respect of this particular modification?

Please be as precise as possible.
